GREEN POWER CHOICE

Application

Green Power Choice is available to all customer classes as well as off-system customers. This is a voluntary contribution by the customers to Waverly Utilities. All Green Power Choice contributions will be used to further Waverly Utilities' renewable resources. No certificate will be issued nor will a specific amount of fossil fuel production be displaced.

Customers may elect to contribute to Green Power Choice through their monthly bill in amounts determined by the customers. A \$2 monthly minimum is required.
