

## WAVERLY UTILITIES-- RULES OF OPERATION

---

### GENERAL SERVICE

Rate Designation: ELGD

#### **Application**

Applied to commercial customers with demand requirements over 50 kW occurring four (4) or more months in any twelve (12) month period. This may include industrial customers and commercial customers within the service area for service delivered through one meter at one location for all purposes. Service is subject to applicable terms and conditions of Waverly Utilities' electric service Rules of Operation.

#### **Character of Service**

Three phase 120/208 or 277/480 volts. Service may also be delivered at primary voltage subject to provisions of primary voltage riders.

Three phase 120/208 services with service entrance panels rated 800 amps or larger and three phase 277/480 services with services entrance panels rated 400 amps or larger are automatically assigned to General Service (50 kW demand requirement is waived).

General customers who believe that their usage patterns have changed may ask Waverly Utilities' to review their current usage patterns. Customers may be moved to another rate class at the sole judgment of Waverly Utilities.

#### **Monthly Rate**

Customer Charge: \$170.00 per month

Demand Charge per kW:	Summer	Winter
First 50 kW	16.00	14.00
All over 50 kW	12.90	10.40

Energy Charge:	All Year
First 250 kWh per kW of billing demand	.0667
Balance kWh	.0441

Summer rate is applicable during four (4) monthly billing periods of June through September. Winter rate is applicable for all other months. Billing will include an adjustment per kWh, computed monthly, to compensate for changes in the cost of power.

#### **Billing Demand**

Metered demand shall be the highest fifteen-minute demand occurring during the month. Adjusted metered demand shall be the metered demand after making adjustment for power factor. Billing demand shall be the current month adjusted metered demand or 50 percent of the highest billing demand for the previous eleven (11) months, whichever is higher. The minimum billing demand shall be 30 kW.
