

# SWITCHING TO STREAMING TV

## STEP 1: SIGN UP FOR A STREAMING TV SERVICE

**All-In-One Solution:** Waverly Utilities recommends YouTube TV, which offers a wide range of channels, a user-friendly interface and features like unlimited cloud DVR storage. You will need a Google account to sign up. Get started at [tv.youtube.com](https://tv.youtube.com). Other all-in-one streaming solutions include HULU Live and Direct TV.

**Sports Fans:** Sports fans interested in regional sports networks like Marquee Network and Fan Duel Midwest should consider Fubo. Visit [fubo.com](https://fubo.com) to learn more.

**Local Channel Options:** Some TV viewers only interested in local channels are choosing digital antennas as an inexpensive option. Or a subscription to the Peacock streaming service with local KWWL news and NBC shows may meet your viewing needs.

You will also need internet service to sign up for streaming TV. If you do not have internet service, please call (319) 559-2000 information about Waverly Utilities internet service options

## STEP 2: GET A STREAMING DEVICE

You can stream with:

- **Streaming Devices:** Amazon Fire TV Stick, Roku, Onn 4K Plus device, or Apple TV
- **Smart TVs:** (Roku, Samsung, LG, Vizio, etc.) Most TVs today are “smart” and can stream. You can easily add your streaming service app.
- **Mobile Devices/Phones/Tablets:** iOS and Android

TIP: If you do not have a Smart TV, an Onn 4K Plus device or Fire TV Stick is an affordable way to get access.

## STEP 3: SET UP YOUR STREAMING TV SERVICE ON YOUR DEVICE

Download your streaming app on your TV or device, sign in and start setup

## STEP 4: CANCEL YOUR WAVERLY UTILITIES TV SUBSCRIPTION

Contact Waverly Utilities at (319) 559-2000. We have no contracts or cancellation fees, so you'll stop paying for TV the day you cancel. We look forward to continuing to deliver reliable, high-quality internet and utility services to you.
